1. Introduction

Nexus Communications sells **Dial-Up**, **Broadband** and **Landline** connections through a retail shop in every city. The Nexus Service Marketing System keeps every step on record: the order, the feasibility check, the connection, the equipment, the monthly postpaid bill and the payment.

This guide explains, screen by screen, how each type of user works with the system. Every user signs in on the same login page and is taken to their own dashboard.

1.1 Who uses the system

Role	What they do	Section
Visitor	Reads about the services, compares plans, tracks an order, registers	3
Customer	Places and tracks orders, sees connections and bills, uploads documents, gives feedback	4
Retail shop staff	Registers walk-in customers, places orders, collects bill payments	5
Technical staff	Checks feasibility, creates connections, issues equipment, suspends overdue connections	6
Accounts staff	Generates monthly bills and records payments	7
Administrator	Maintains cities, shops, employees, plans, discounts, vendors, stock; watches reports	8

1.2 The life of an order

1. The customer (or a retail shop) places an order. The system gives it an **order number**, for example D0000000001.
2. Technical staff check whether the address can be served (**feasibility**).
3. If it is feasible, technical staff create the **connection**. The customer receives a 16-character **account ID**, for example B001000000000001.
4. Every month the accounts team generates a **postpaid bill**. The first bill includes the refundable security deposit.
5. The customer pays at any Nexus shop. Unpaid bills past their due date can lead to the connection being suspended.

2. Getting Started

2.1 What you need

- A computer, tablet or phone with an up-to-date web browser (Chrome, Edge, Firefox or Safari).
- The address of the Nexus website (when running locally: <http://localhost:5294>).
- A username and password. Customers register themselves; staff accounts are created by the administrator.

2.2 Registering as a customer

1. Click **Register** at the top right of any page.
2. Fill in your name, contact details, address and city, then choose a username and password.
3. Click **Create account**. You are signed in and taken to your customer dashboard.

The screenshot shows the 'Create Customer Account' page of the Nexus Communications website. The page has a dark blue header with the 'NEXUS Communications' logo and navigation links for 'Home', 'Plans', and 'Track'. In the top right corner, there are 'Login' and 'Register' buttons. The main content area features a large, abstract graphic of a glowing sphere with orbital lines on the left. On the right, the 'Create Customer Account' form is displayed. The form includes a sub-header 'Create Customer Account' and a description 'Register to place orders and track your Nexus services.' Below this, there are input fields for 'Full name', 'Email', 'Phone', 'Address', 'Postal code', and 'CityId'. A 'Customer type' dropdown menu is set to 'Individual'. The 'Full name' field is currently empty, while the 'Email' field contains the text 'example@example.com'.

Figure 1 - Register page

2.3 Signing in and out

1. Click **Login** at the top right.
2. Enter your username and password and click **Log in**.
3. You are taken to your dashboard. Your menu shows only the pages for your role.
4. To sign out, open your name at the top right and choose **Logout**.

Figure 2 - One login page for every role

Tips

The menu item of the page you are on is highlighted as a clear-glass button. Cards you can click light up and turn clear when you point at them.

3. Public Pages

3.1 Home page

The home page introduces the three services, the cities served, the bulk discount bands and how the process works. From here you can compare plans, track an order or register.

Figure 3 - Home page

3.2 Plans and prices

Click **Plans** in the menu. Plans are grouped by service; use the Dial-Up / Broadband / Landline tabs to jump to a group. Each card shows the price, the period it covers, what is included and the refundable deposit.

Figure 4 - Plans and prices

3.3 Tracking an order or connection

1. Click **Track** in the menu.
2. Enter your 11-character order number (for example D0000000001) or your 16-character account ID.
3. Click **Search** to see the current stage of the order or connection (on the home page the button is **Check status**).

Figure 5 - Tracking an order

4. Customer Guide

4.1 Dashboard

After signing in you see your dashboard: open orders, active connections, the balance still due and quick links to every customer page.

Figure 6 - Customer dashboard

4.2 Placing an order

1. Open **Place order** from the dashboard or the menu.
2. Choose the **connection type** - Dial-Up, Broadband or Landline - and then a **plan**.
3. Dial-Up needs a Nexus landline. If you do not have one, also choose a **landline plan**: both are ordered together.
4. Enter the **installation address** and **city**, and the **number of connections** (10 or more gives a bulk discount).
5. Click **Place order**. Note the order number shown - you can track it at any time.

The screenshot shows the 'Place a service order' form in the Nexus Communications dashboard. The form is titled 'Place a service order' and is located under the 'Orders' tab. It contains the following fields:

- Service type: Choose service (dropdown)
- Plan: Choose plan (dropdown)
- Installation city: Choose city (dropdown)
- Installation address: (text input)
- Number of connections: 1 (text input)
- Submit order (button)

The dashboard header includes the Nexus Communications logo and navigation links: Home, Plans, Track, My Dashboard, Orders (selected), Connections, Bills, Documents, Feedback. The user profile 'Alice Dial' is shown in the top right corner.

Figure 7 - Placing an order

4.3 My orders

My orders lists every order with its status. Open an order to see its details. An order that has not yet been connected can be cancelled with **Cancel order**.

The screenshot shows the 'My service orders' page in the Nexus Communications dashboard. The page is titled 'My service orders' and is located under the 'Orders' tab. It contains a table with the following data:

ORDER	SERVICE	PLAN	PLACED	STATUS	
000000000001	Dial-Up	Dial-Up Hourly 10 Hrs	10/9/2026	Connected	Track

The dashboard header includes the Nexus Communications logo and navigation links: Home, Plans, Track, My Dashboard, Orders (selected), Connections, Bills, Documents, Feedback. The user profile 'Alice Dial' is shown in the top right corner.

Figure 8 - My orders

4.4 Connections

Connections lists your connections with their account IDs, plan, status (Active, Temporarily inactive, Permanently inactive) and the equipment supplied.

Home / Dashboard / My connections

My connections

Your account IDs, connection status and the amount currently due.

ACCOUNT ID	SERVICE	PLAN	CITY	STATUS	AMOUNT DUE
T001000000000001	Dial-Up	Dial-Up Hourly 10 Hrs	Karachi	Active	\$0.00
T001000000000001	Telephone	Landline Local Monthly	Karachi	Active	\$0.00

Postpaid billing - 12.24% service tax included on every bill

Figure 9 - My connections

4.5 Bills

Bills shows every bill, itemised: plan charge, call charges, deposit, discount and 12.24% service tax, with what has been paid and what is still due. Pay at any Nexus retail shop.

Home / Dashboard / My bills

My bills

Payments are recorded at a Nexus retail shop or through Accounts. Each bill shows its charges, the amount paid and the amount due. "Brought forward" is what was still unpaid on your earlier bills when the bill was issued.

ACCOUNT	PERIOD	ISSUED	DUE	PLAN FEE	USAGE	DEPOSIT	REPLACEMENT	DISCOUNT	TAX	TOTAL	BROUGHT FORWARD
T001000000000001	10/1/2026 - 10/31/2026	10/1/2026	10/15/2026	\$35.00	\$0.00	\$0.00	\$0.00	-\$0.00	\$4.28	\$39.28	\$404.06

4.6 Documents, profile and feedback

- **Documents** - upload proof of identity or address (PDF or image) and download what you uploaded.

- **Profile** - update your phone number, e-mail and address.
- **Feedback** - send a comment or complaint to Nexus; the administrator reads every message.

The screenshot shows the 'Feedback' page of the Nexus Communications system. The page has a dark blue header with the 'NEXUS Communications' logo and navigation links: Home, Plans, Track, My Dashboard, Orders, Connections, Bills, Documents, and Feedback. A user profile 'Alice Dial' is visible in the top right. Below the header, a breadcrumb trail reads 'Home / Dashboard / Feedback'. The main content area features a feedback form with the following fields: 'Rating' (a dropdown menu currently showing '5'), 'Related order (optional)' (a dropdown menu currently showing 'General'), and 'Related connection (optional)' (a dropdown menu currently showing 'None'). Below these is a 'Comments' text area and a 'Submit' button. The footer contains the 'NEXUS Communications' logo, a 'SERVICES' section with links for 'Dial-Up' and 'Broadband', a 'CUSTOMERS' section with links for 'Track an order' and 'Create an account', and a 'HELP' section with the text 'Visit any Nexus retail shop to enquire, order or pay a bill.'

Figure 11 - Feedback form

5. Retail Shop Staff Guide

Retail staff work for one shop. They see only their own shop's customers, orders and bills.

Figure 12 - Retail dashboard

5.1 Registering a walk-in customer

1. Open **Customers** and click **New customer**.
2. Enter the customer's details; the city is set to your shop's city.
3. Save. The customer can now be given an order.

5.2 Placing an order for a customer

1. Open **Place order** and choose the customer.
2. Choose the connection type and plan (and a landline plan when a Dial-Up customer has no landline).
3. Enter the installation address and the number of connections, then click **Place order**.
4. Give the customer the order number printed on the confirmation.

Figure 13 - Placing an order at the shop

5.3 Collecting a bill payment

1. Open **Collect payment**. Bills with money still due are listed.
2. Click **Record payment** next to the bill, enter the amount and payment method, and save.
3. The bill status changes to Partially paid or Paid. Earlier unpaid bills are paid first.

Figure 14 - Bills the shop can collect

6. Technical Staff Guide

Figure 15 - Technical dashboard

6.1 Feasibility check

1. Open **Feasibility**. New orders waiting for a check are listed.
2. Click **Start checks** on an order. A distance check and a server-capacity check are created.
3. Click **Record result** on each check, choose **Feasible** or **Not feasible**, add remarks and click **Save result**.
4. When both checks are feasible the order becomes Feasible; the customer sees the result when tracking it.

Figure 16 - Feasibility queue

6.2 Creating a connection

- 1. On the Feasibility page click **Provision** next to a feasible order.
- 2. Enter the phone number (landline), choose the equipment to supply and its serial number - stock is reduced automatically.
- 3. Click **Provision connections**. The system creates the connection and its 16-character account ID.

Figure 17 - Connections

6.3 Overdue bills - suspend and reactivate

Overdue lists active connections that have a bill past its due date. Click **Suspend** for one connection or **Suspend all**. When every bill of a suspended connection has been paid, it appears with a **Reactivate** button.

The screenshot displays the 'Overdue bills' section of the Nexus Communications dashboard. The top navigation bar includes links for Home, Plans, Track, My Dashboard, Feasibility, Connections, Overdue (selected), Equipment, and Search. A user profile 'tech1' is visible in the top right. The main content area has a breadcrumb 'Home / Dashboard / Overdue bills' and a title 'Overdue bills'. Below the title, a note states: 'Connections are postpaid: an active connection whose bill is past its due date and not fully paid is set temporarily inactive. When the customer has paid, reactivate it from the second table.' There are two tables: 'Active connections with overdue bills (0)' with columns ACCOUNT, CUSTOMER, PHONE, OVERDUE BILLS, OVERDUE AMOUNT, and OLDEST DUE DATE; and 'Suspended connections with all bills paid (0)' with columns ACCOUNT, CUSTOMER, and PHONE. Both tables are currently empty. The footer contains the Nexus Communications logo and contact information, along with links for SERVICES (Dial-Up, Broadband, Landline), CUSTOMERS (Track an order, Create an account, Sign in), and HELP (Visit any Nexus retail shop to enquire, order or pay a bill, Privacy notice).

Figure 18 - Overdue connections

6.4 Other tasks

- Change a connection's plan, or close it permanently (the deposit becomes refundable).
- Replace faulty equipment; the old item is recorded and the new one is taken from stock.

7. Accounts Staff Guide

Figure 19 - Accounts dashboard

7.1 Generating a bill

1. Open **Generate bill** and choose the connection and the billing period.
2. For a landline, enter the local, STD and mobile call minutes and any other usage charge.
3. Check the **charges preview**: plan charge, calls, deposit on the first bill, bulk discount and 12.24% tax.
4. Click **Generate bill**. The bill is issued with a due date.

Home / Dashboard / Generate bill

Generate bill

Charges are calculated by the system: the plan fee (once per plan validity period), call charges from the minutes entered and the plan's per-minute rates, unbilled equipment replacements, the security deposit and bulk discount on the first bill, and 12.24 % service tax on the whole bill.

Connection: T001000000000001 — Alice Dial

Billing period starts: 12/01/2026

Show charges

T001000000000001 - Landline Local Monthly

- Plan fee on this bill: **\$35.00**
- Local calls: \$0.75 / minute
- Equipment replacement charges to bill: \$0.00
- Unpaid from earlier bills (brought forward): \$0.00

Billing period starts: 12/01/2026

Billing period ends: 12/31/2026

Issue date: 10/09/2026

Due date: 10/23/2026

Local call minutes: 0

Other usage charges (e.g. extra internet hours):

Figure 20 - Generating a bill with the charges preview

7.2 Bills and payments

Bills & payments lists every bill with its total, the amount brought forward from earlier unpaid bills, what has been paid and what is outstanding. Use **Record payment** to record a payment received at the head office.

Home / Dashboard / Bills

Bills

Generate bill

"Brought forward" is what was still unpaid on the connection's earlier bills when the bill was issued; it is paid against those bills.

BILL	CUSTOMER	ACCOUNT	PERIOD	TOTAL	BROUGHT FORWARD	PAID	OUTSTANDING	STATUS
#8	Bob Broad	B001000000000001	11/1/2026 - 11/30/2026	\$0.00	\$1,504.02	\$0.00	\$0.00	Paid

8. Administrator Guide

The administrator signs in with the account created when the system was installed and should change its password after the first sign-in.

Figure 22 - Admin dashboard

8.1 Master data

Page	What to do there
Cities	Add the cities served. Each has a 3-digit code that becomes part of every account ID issued there.
Retail shops	Add one shop per city with its address and phone number.
Employees	Create staff logins and choose their role (Admin, Accounts, Technical, Retail) and shop.
Plans	Add, edit, search and delete Dial-Up, Broadband and Landline plans, prices and deposits.
Discount schemes	Set the bulk discount bands (for example 10-14 connections: 25%).
Vendors	Equipment manufacturers and suppliers.
Products & stock	Modems, routers and other equipment with stock and reorder level.
Equipment purchases	Record purchases from vendors; receiving them adds to stock.

9. Quick Reference

9.1 Status meanings

Item	Status	Meaning
Order	Placed	Received; nothing checked yet
Order	Under feasibility check	Technical staff are checking the area
Order	Feasible / Not feasible	Result of the check
Order	Connected	The connection has been created
Order	Cancelled	Withdrawn by the customer or staff
Connection	Active	In service
Connection	Temporarily inactive	Suspended, usually for an overdue bill
Connection	Permanently inactive	Closed
Bill	Issued / Partially paid / Paid	How much of the bill has been paid

9.2 Identifier formats

Identifier	Format	Example
Order number	Service letter (D, B, T) + 10 digits	D00000000001
Account ID	Service letter + 3-digit city code + 12 digits	B001000000000001

9.3 Bulk discount

Connections	Discount on advance and deposit
10 - 14	25%
15 - 24	50%
25 - 49	75%
50 or more	100%

9.4 Troubleshooting

Problem	What to do
Cannot sign in	Check Caps Lock and the username. Staff: ask the administrator to reset the password.
A page says Access denied	The page belongs to another role. Use the menu, which shows only your pages.
Dial-Up plan cannot be ordered	A Dial-Up connection needs a landline - choose a landline plan in the same order.
Order shows Not feasible	The address cannot be served yet; contact the retail shop.
Connection suspended	Pay the overdue bills at any shop; technical staff then reactivate it.
